

Chapter-11

A. Answer these questions-

1. Why do we need a house?

Ans - We need a house to live in.

2. How can we prevent flies and mosquitoes from entering our house?

Ans - The house should have wire mesh in doors and windows to prevent flies and mosquitoes from entering our house.

3. Why do we need a proper drainage system in our house?

Ans - A proper drainage system should not allow the dirty water to collect inside or outside the house. The house should have a proper drainage system to carry away dirty water.

4. Why should we grow trees and plant around our house?

Ans - We grow plants around our house to keep the air fresh and cool.

Q. What can you do to keep your house neat and clean?

- Ans- 1. The floors in house should be swept and mopped everyday
2. Bathrooms should be cleaned regularly
3. Always keep your things on their places.

B. Fill in the blanks -

1. A house should be clean and fresh
2. Sunlight keeps the house free from germs
3. A house should have a proper drainage system
4. Bathrooms and toilets need special care
5. Household waste should be thrown at a proper place
6. Open spaces in a house allow sunlight and fresh air to enter the house.

FUN Time

This is Rahul's room. Circle four things in the room which are at the wrong places and fill in the blanks given below the picture.

1. The banana peel should be thrown into the dustbin (into the dustbin/ on the bed).
2. Books should be kept on the table (table/ doorstep).
3. Toys should be put into the toybox (toy box/ dustbin).
4. Rahul should open (open/close) the window to let in fresh air (fresh air/ germs).
